

# SP<sup>OUTLET</sup>™

SINGLE PLY RAINWATER OUTLET

**SP<sup>OUTLET</sup> is here to change  
the way you drain!**

**Made from durable and weatherproof PP plastic, SP<sup>OUTLET</sup> is an innovative solution to the age-old problem of effectively draining flat roofs into domestic downpipes.**

Alternative ill-fitting 'one size fits all' solutions are usually over-complicated, ineffective, cause ponding and are poorly conceived with multiple components needed.

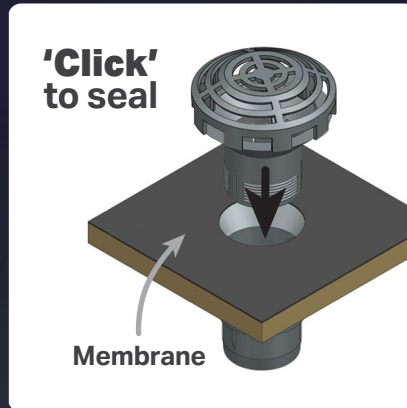

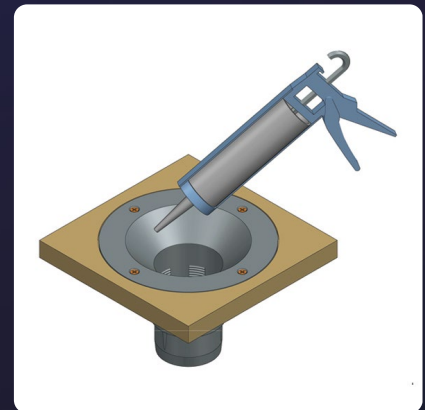

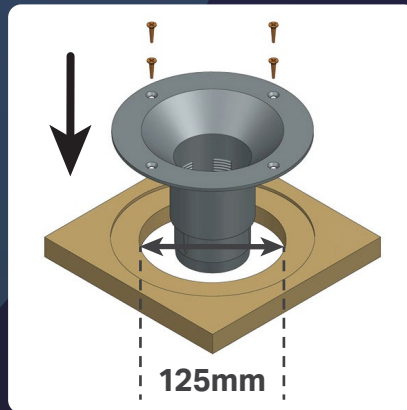

Specifically designed for 68mm domestic downpipes.
